

Vertical Team Meeting
January 4, 2019
1:45-3:30pm

Note: Please identify one member to lead the conversation and one member to take notes in the LME Notebook under Vertical Teams.

Suggested questions

What are school-wide initiatives in your school that perhaps others should know about and potentially support?

What's happening in your school for Read Across America? (Or World Read Aloud Day or any second semester programming) Are there opportunities for collaboration between buildings?

How are your students using Cobb Digital Library? O365? Web 2.0 tools?

How do you teach digital citizenship skills?

How are you using Nearpod / Flipgrid / Noodletools?

What research / digital skills do your students master before leaving? What skills do you want students coming into your school to already have?

What do lessons look like at your school? Is there a lot of collaboration and co-teaching between you and your teachers?

What is the reading culture like in your school? Are there opportunities to help build and support each other with reading culture or programming?

Public library

A representative from the public library may be in attendance. If so, they are listening to conversations to learn more about your programming and help develop additional public library programming to support your work. They may jump in with questions toward the end of the session.
